'Hypergienic' Rotary Valve

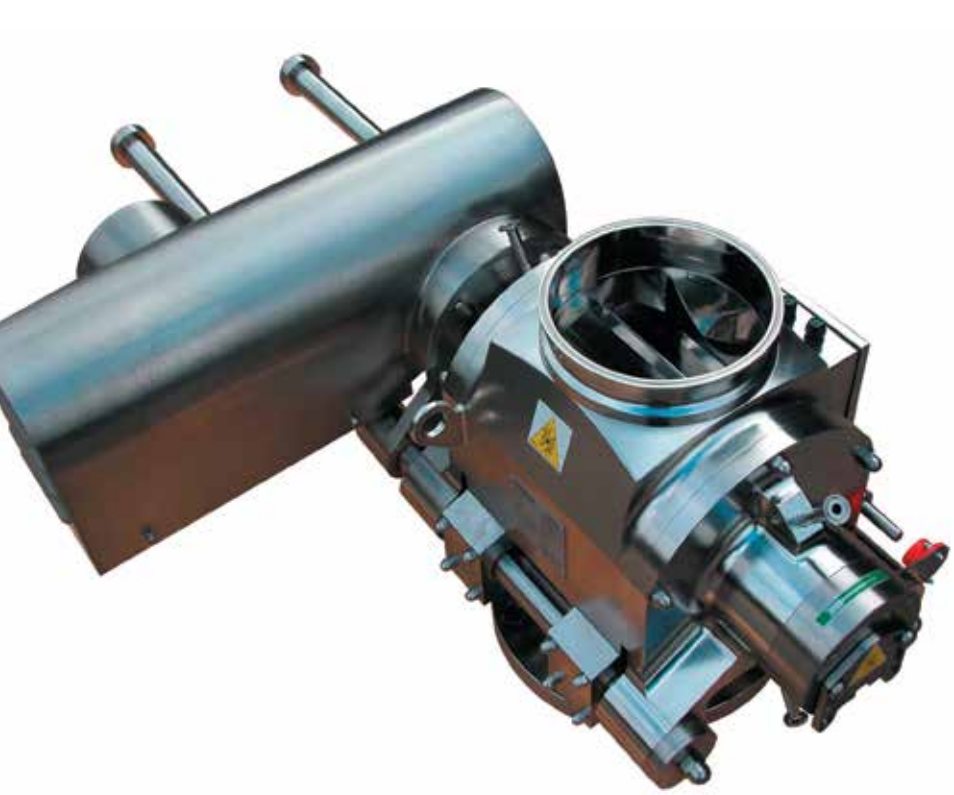
Rota Val 'Hypergienic' Rotary Valves are designed to meet the critical needs of the pharmaceutical and food industries.

Developed in co-operation with the pharmaceutical and related industries, the fully fabricated design embodies a range of detailed features that validate the design and construction for the dedicated purpose.

The innovative and flexible design allows for variations to individual units to be included to meet customer specific requirements.



300mm 'Hypergienic' Rotary Valve Isolator version

Features and options include:

- Rapid access
- All surfaces self draining
- Full clean-in-place (C.I.P.)
